ADAI

Karadaiyan Nombu Adai (Savory)

BROWN RICE FLOUR: Soak 1/2 cup of brown rice in water for 30 minutes, drain the water and spread the rice in a towel to dry for 10 minutes, grind the dried rice in a mixer to a smooth powder. Use a sieve to get fine powder. Grind the residue and sieve again. This process can be repeated twice or more. Dry roast the fine powder till it's warm (may be 2 or 3 minutes) and let it cool to room temperature. This will yield about 3/4 cups of rice flour.

BLACK EYED PEAS: Soak in water for some time, cook & drain.

- (1) Heat a dry pan, add half a teaspoon of mustard seeds and let it splutter.
- (2) Add asafetida, chopped green chillies, and curry leaves.
- (3) Add 1.5 cups of water and salt to taste and bring it to boil.
- (4) Reduce the heat and mix in 3/4 cup of brown rice flour. After the dough is formed add 1 tablespoon of cooked and drained black eyed peas.
- (5) Let the dough cool a bit and then make into lemon sized balls.
- (6) Flatten each ball in idli plate and make a small hole in the middle.
- (7) Steam for about 5 minutes.

A recipe with **WHOLE GRAINS** (brown rice), **BEANS** (black eyed peas), **NUTS & SEEDS** (coconut), **SPICES** (various).

Brown rice - 1/2 cup
Grated coconut - 1 tbsp
Black eyed peas - 1 tbsp
Mustard seeds - 1/2 tsp
Asafetida - a pinch
Green chilli - 1 small
Curry leaves - a few
Salt - to taste

Potato Pumpkin Bhakri

- Grated **pumpkin** or **squash** (I used Red Kuri squash; any store bought non fibrous Pumpkin will suffice) — 1.5 cups
- **Ezekiel bread crumbs** — 1.25 cups
- **Tiger nut flour** — 2/3 cup
- **Date sugar** — 1 Tbsp
- Himalayan salt — as per taste
- **Hing** (asafoetida) — 1.5 tsp
- **Green chillies** — 3, or as per taste
- **Water** — 1 cup or until the dough binds well
- **Banana leaves** — optional

- 1) Mix all the ingredients together. Add water to bind the mixture into a soft dough like consistency.
 - 2) Heat a cast iron skillet at low heat. Pat a fist sized ball of the mixture and flatten it on a banana leaf in the shape of Bhakri.
 - 3) Place the banana leaf with Bhakri on the skillet. Cover it with another banana leaf on top. Cook on low heat until the banana leaf at the bottom chars.
 - 4) Discard the charred banana leaf. Flip the Bhakri and cook on the second banana leaf (which was on top earlier).
 - 5) Once the second banana leaf chars, discard it. Flip the Bhakri again and cook until it is evenly cooked.
 - 6) Enjoy Bhakri with your favorite chutneys :))
- TIP: If banana leaves are not available, we may cook Bhakri with the lid on, flipping a few times to cook both sides.
