Collard Greens Patra

by Kusum Dhairyawan

BATTER

Combine these together, along with **water** to make a thick batter for coating collard leaves:

- **Besan (chickpea flour)** — 3 cups
- 1 Tbsp **tamarind paste** (not from concentrate) — homemade by soaking tamarind and squeezing the pulp
- 1 **green chili** (finely chopped), 1/2 inch **ginger** (finely grated), 2 cloves of **garlic** (grated, optional), a handful of **cilantro** (finely chopped)
- Spices — **turmeric**, a pinch of hing (**asafoetida**), 1/2 tsp ajwain (**carom seeds**), salt [optional; to taste] and 1 tsp **date sugar**, and a pinch of **ENO**.

PATRA

- Wash and dry collard leaves. Then remove the stems (the central ribs); use stems in a separate recipe.
- Lay down a leaf on a flat surface. Coat it with thick batter from top to bottom. Then lay another leaf over the first leaf (coated with batter). Coat the second leaf with batter. Optionally, we may lay down a third leaf on top of the second leaf and coat it with batter — it depends on the size of leaves. Then roll them together like a spring roll.
- Steam the rolls in a steamer for 30 mins. Insert a knife to check — if it comes out clean, that means the rolls are cooked thoroughly.
- Let it cool completely before cutting into slices as shown in pic.
- Serve with Green Chutney or Sweet Chutney.
